

**SNOW PLOWING SERVICE** — Reliable Snowplowing, LLC has more than 30 years of snow and ice management experience. This means we have the knowledge and resources to handle your snow removal needs. You'll discover that we take great pride in giving you a safe winter environment. You will also enjoy our outstanding customer service; customizing exact services to your business's particular needs is our specialty.

**24-HOUR COMMAND CENTER** — We feature a 24 hour command center during every winter storm. There are no unanswered incoming phone calls. Each truck driver has been fully trained and equipped to perform top-level service at your location. Additionally, we also have back-up trucks and drivers in case of a large snowfall, or severe ice storm. This way you can sleep comfortably while we take care of the details.

**DE-ICING** — De-icing is indispensable for the ultimate in snow and ice management. Keeping a safe property is smart business. Our goal is to limit your liability, provide safety, convenience and easy access at an affordable price. With de-icing, the client is assured the highest level of service in all weather conditions. Our staff has an in-depth knowledge of Calcium Chloride, one of the most environmentally-friendly and effective de-icers, which can be applied according to clients' special needs.

**SIDEWALK SERVICE** — We understand how important the safety of the foot traffic is on your property, which is why sidewalk snow and ice control is not an afterthought for us. In fact, before, during and after a storm, our sidewalk and shoveling crews are focused solely on sidewalk and walkway snow and ice control. We equip them with the latest de-icing materials, equipment, and technology to be as efficient and effective as possible.

**SNOW REMOVAL** — Under some conditions and in tight, congested areas it can become necessary to move snow piles. Our clients can depend on Reliable Snowplowing for relocation services. We can bring in equipment to remove snow in any capacity. Naturally, the heavy lifting can be done after normal business hours to reduce liability and ease disruption. This service is available upon request as needed.
